Acupuncture is a form of alternative medicine and a key component of traditional Chinese medicine (TCM) in which thin needles are inserted into the body. Acupuncture is a pseudoscience because the theories and practices of TCM are not based on scientific knowledge. There is a range of acupuncture variants originating in different philosophies, and techniques vary depending on the country in ...

A recent article in the LA times tells of a husband's quest to find a treatment for his wife's Alzheimer's disease. This is a narrative that journalists know and love—the brave patient or loved-one who won't accept the nihilism of the medical establishment, who finds a maverick doctor willing to buck the system.

(NaturalHealth365) Near the end of 2018, we reported on several major drug recalls spearheaded by the U.S. Food and Drug Administration (FDA). Included in the recall were contaminated batches of blood pressure medications that tested positive for cancer causing substances.. Now, in a purely head-scratching moment, the FDA appears to be backpedaling on their prior warnings.
