Interko's design to ripen large volumes of bananas The II-tier Ultimo fruit ripening room. The current Ultimo fruit ripening room by Interko is a result of 50 years of innovation.

Bananas - freshplaza.com

...So long as you nosh on green nanners, at least! Prior to ripening, bananas are rich in something called resistant starch, which, as the name suggests, literally resists the digestion process. This feeds healthy gut bacteria, which suppresses the appetite and leads to more efficient fat oxidation.

NIMBY (an acronym for the phrase "Not In My Back Yard"), or Nimby, is a characterization of opposition by residents to a proposed development in their local area. It often carries the connotation that such residents are only opposing the development because it is close to them, and that they would tolerate or support it if it were built farther away.

NIMBY - Wikipedia

This part of the globalissues.org web site looks into the banana trade war. The causes and effects of

this is typical of what goes on around the world, and millions of livelihoods are affected, in the name of corporate interests and profit, not fair trade.
