Business ethics (also known as corporate ethics) is a form of applied ethics or professional ethics, that examines ethical principles and moral or ethical problems that can arise in a business environment. It applies to all aspects of business conduct and is relevant to the conduct of individuals and entire organizations. These ethics originate from individuals, organizational statements or ...

Business ethics - Wikipedia

The case method is a teaching approach that uses decision-forcing cases to put students in the role of people who were faced with difficult decisions at some point in the past. It developed during the course of the twentieth-century from its origins in the casebook method of teaching law pioneered by Harvard legal scholar Christopher C. Langdell. In sharp contrast to many other teaching methods ...

Case method - Wikipedia

In the first section, we gave a brief definition of what is meant by professional ethics. In this section, we will briefly present some concepts and suggest some readings that take a look at the history of what is meant by a profession, some differing ways to think about professional ethics, and a brief analysis of what is meant by professional responsibility.
