### **Chaos Making A New Science**

Chaos: Making a New Science by James Gleick is the story of how chaos theory was popularized in different fields of study. In Chaos, Gleick looks at how the science of chaos was developed. It's pretty interesting to follow how researchers in different fields somehow discovers how the theory is not as it seems.

### **Chaos: Making a New Science Paperback - amazon.com**

Chaos: Making a New Science is a debut non-fiction book by James Gleick that initially introduced the principles and early development of the chaos theory to the public. It was a finalist for the National Book Award and the Pulitzer Prize in 1987, and was shortlisted for the Science Book Prize in 1989.

### **Chaos: Making a New Science - Wikipedia**

Chaos: The Tip of a Giant Iceberg Gleick only gives an introduction about the actual science and beauty of Chaos. Instead he focusses on giving a poetic account of the scientists who first stumbled on it -- and their great surprise and their struggles form the narrative crux of the book.

### **Chaos by James Gleick | PenguinRandomHouse.com: Books**

Time Travel is another of James Gleick's superb, unclassifiable books—rich in obscure and illuminating information, laced with lyricism, wit, and startling and convincing insights. It is an exploration not only of the (theoretical) phenomenon of time travel but of our understanding of 'time' itself. —Joyce Carol Oates
