This is an excellent interview, which I will be returning to re-read. As someone who has been directly involved in research and speculation about this matter for some 20 years now, it is refreshing to see someone who can direct the force of years of independent research at what will turn out to be one of the most crucial topics in human cognitive evolution, and may supply the keys to the many ...

The four-year podiatric medical school is followed by a surgical based residency, which is hands-on post-doctoral training. As of July 2013, all residency programs in podiatry were required to transition to a minimum three-years of post-doctoral training. Podiatric residents rotate through core areas of medicine and surgery.
