Grains Of Hope Time Magazine

At first, the grains of rice that Ingo Potrykus sifted through his fingers did not seem at all special, but that was because they were still encased in their dark, crinkly husks. Once those drab coverings were stripped away and the interiors polished to a glossy sheen, Potrykus and his colleagues ...

Biotech advocates, in an evocative narrative of hope, herald genetically modified, high-yield crop varieties as the solution to world hunger (Glover, 2010, 973-974; Schurman and Munroe, 2010, 161-162).

Public Opinion of Genetically Modified Organisms

However, because there have often been long time lags between when plants were first released in a novel environment and the time at which the plants developed into pernicious weeds (19,28), the absence of effects in even a decade long study (e.g., 5) should not be considered a guarantee of safety.

Risk Analysis and Transgenic Crops - Plant Management Network

The hope that GMO foods might bring solutions to malnutrition and world hunger was never more dramatically illustrated than when Time magazine ran a cover story titled "Grains of Hope." The article joyfully announced the development of a genetically engineered "golden rice."

Can GMOs Help End World Hunger? - Food Revolution Network

This is the web site for the Grains of Hope program which was founded by a number of churches and civic groups in Pequannock Township, NJ. Our mission is to address world hunger by providing food where there is great need, and where other external sources are insufficient to meet the need.
