Phonics instruction helps children learn the relationships between the letters of written language and the sounds of spoken language. Children are taught, for example, that the letter n represents the sound /n/, and that it is the first letter in words such as nose, nice and new. We've found great apps that give kids practice with basic phonics skills, including recognizing

Albatross is a type of sea bird. There are 21 species of albatross that live mainly in the south hemisphere. They inhabit Antarctica, Australia, South Africa and South America. Rare species of albatross live in the northern hemisphere and inhabit Alaska, Hawaii and California. Albatross spends almost entire life on the ocean. It can be seen on the land only during the mating season. 19 out of ...

Bald eagles are one of the largest birds in the North America. They can be found everywhere, from Florida and California, to Newfoundland and Alaska. Their habitats are always closely associated with rivers, marshes, lakes or coasts. During 1970s, number of bald eagles decreased greatly due

to habitat destruction, hunt and use of pesticides (which damage the shell of eggs).
