The Higher School Certificate (HSC) is the credential awarded to secondary school students who successfully complete senior high school level studies (Years 11 and 12 or equivalent) in New South Wales, Australia. It was first introduced in 1967, with the last major revision coming into effect in 2001. It is currently developed and managed by the NSW Education Standards Authority (NESA).

Higher School Certificate (New South Wales) - Wikipedia

In the School of Environmental and Rural Science we explore how the Earth shapes our activities and how our activity shapes the Earth.

School of Environmental and Rural Science - University of ...

The Diploma of Science will prepare students with a grounding in scientific knowledge and skills and a taste of the many opportunities that science provides. Students will learn the language and nature of science and mathematics, and will be able to follow their interests in specific areas of science. The Diploma is a pathway to Southern Cross University's Associate Degree of Science or it ...

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes as ...
