50 State Afterschool Network

Project-based learning (PBL) is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem.

What's Your Learning Style? One of the most widely used models of learning styles is The Index of Learning Styles™ developed by Dr Richard Felder and Barbara Soloman in the late 1980s, and based on a learning styles model developed by Dr Felder and Linda Silverman.. According to this model (which Felder revised in 2002) there are four dimensions of learning styles.

Learning Styles - Develop your Learning Skills from ...

Situated cognition is a theory that posits that knowing is inseparable from doing by arguing that all knowledge is situated in activity bound to social, cultural and physical contexts.. Under this assumption, which requires an epistemological shift from empiricism, situativity theorists suggest a model of knowledge and learning that requires thinking on the fly rather than the storage and ...

Aviation instructors need a good understanding of the general characteristics of learning in order to apply them in a learning situation. If learning is a change in behavior as a result of experience, then instruction must include a careful and systematic creation of those experiences that promote learning.
