Medical Informatics 3rd Third Edition

If physiology literally means 'the logic of life', and pathology is 'the logic of disease', then health informatics is the logic of healthcare. The expanded and completely revised 3rd Edition is now available. Reviews "Comprehensive. Timely. Readable. Interesting. Useful as a textbook and/or reference. Relevant. Highly recommended."

Medical classification, or medical coding, is the process of transforming descriptions of medical diagnoses and procedures into universal medical code numbers. The diagnoses and procedures are usually taken from a variety of sources within the health care record, such as the transcription of the physician's notes, laboratory results, radiologic results, and other sources.
