Modern refrigeration and air conditioning | Danfoss

Network Refrigeration & Air conditioning Pty Ltd is a Northside business based in Brendale, specializing in the supply, installation, service & maintenance of commercial refrigeration & commercial and domestic air conditioning.

Network Refrigeration & Air Conditioning

Modern air conditioning emerged from advances in chemistry during the 19th century, and the first large-scale electrical air conditioning was invented and used in 1902 by US inventor Willis Carrier. The introduction of residential air conditioning in the 1920s helped enable the great migration to the Sun Belt in the United States. [citation needed] In 1758, Benjamin Franklin and John Hadley, a ...

Air conditioning - Wikipedia

Refrigeration is a process of removing heat from a low-temperature reservoir and transferring it to a high-temperature reservoir. The work of heat transfer is traditionally driven by mechanical means, but can also be driven by heat, magnetism, electricity, laser, or other means. Refrigeration has many applications, including, but not limited to: household refrigerators, industrial freezers ...
