Distress is a prevalent and costly problem in today's workplace. About one-third of workers report high levels of stress. 20-30% of workers in different sectors of the European Union reported in 2007 that they believed work-related stress was potentially affecting their health. Three-quarters of employees believe the worker has more on-the-job stress than a generation ago.

Abstract. This paper applies the concept of a Capability Maturity Model to Training and Education - the realization that how you design and deliver training (your process) is as important to your success as what you deliver (your product). It is based largely on the classical CMM and CMMI developed by the Software Engineering Institute (SEI), but it doesn't stop there.

Journal Articles are typically longer works with more more analysis than the news and short commentary in the SWJ Blog.. We accept contributed content from serious voices across the small wars community, then publish it here as quickly as we can, per our Editorial Policy, to help fuel timely, thoughtful, and unvarnished discussion of the diverse and complex issues inherent in small wars.
