

Sustainability Sustainable Development By M R Redclift

Sustainability Sustainable Development By M

Sustainability can be defined as the practice of maintaining processes of productivity indefinitely—natural or human made—by replacing resources used with resources of equal or greater value without degrading or endangering natural biotic systems. Sustainable development ties together concern for the carrying capacity of natural systems with the social, political, and economic challenges ...

Sustainable development - Wikipedia

The name sustainability is derived from the Latin *sustinere* (tenere, to hold; sub, under). Sustain can mean "maintain", "support", or "endure". Since the 1980s sustainability has been used more in the sense of human sustainability on planet Earth and this has resulted in the most widely quoted definition of sustainability as a part of the concept sustainable development, that of the Brundtland ...
