

## *Teaching Science In Secondary Schools*

### **Teaching Science In Secondary Schools**

How can we improve our secondary science teaching and learning? The quality of science teaching and learning continues to be an area of concern. When it is inadequate, it is often the lack of a sufficient number of highly-qualified and dedicated science teachers that is cited as the problem.

### **Secondary School Science - Teaching Times**

A serious shortage of STEM teachers nationwide means science teachers are in very high demand. A B.S. Science Education (Secondary Earth Science) degree from WGU's CAEP-accredited Teachers College can prepare you to fill a critically important role in secondary education.
