The Time Machine Novel

The Time Machine is a science fiction novella by H. G. Wells, published in 1895 and written as a frame narrative. The work is generally credited with the popularization of the concept of time travel by using a vehicle that allows an operator to travel purposely and selectively forwards or backwards in time. The term "time machine", coined by Wells, is now almost universally used to refer to ...

Time After Time is a 1979 science fiction novel by American writer Karl Alexander. Its plot speculates what might have happened if H. G. Wells had built a real time machine to travel to the 1970s in search of Jack the Ripper.. The novel was adapted to film the same year, under the same title, by Alexander's friend Nicholas Meyer who had optioned the story after reading the early pages.
