Tornado definition: A tornado is a violent wind storm consisting of a tall column of air which spins round... | Meaning, pronunciation, translations and examples

Tornado definition and meaning | Collins English Dictionary

The Hawker Tornado was a British single-seat fighter aircraft design of World War II for the Royal Air Force as a replacement for the Hawker Hurricane. The planned production of Tornados was cancelled after the engine it was designed to use, the Rolls-Royce Vulture, proved unreliable in service. A parallel airframe with the Napier Sabre continued into production as the Hawker Typhoon

Hawker Tornado - Wikipedia

Tornado II Two seats in tandem version, intended for the previous US ultralight trainer category and presently for the US homebuilt and light-sport categories. It has a 23.5 ft (7.2 m) wingspan. Standard engine is the 64 hp (48 kW) Rotax 582 and cruise speed is 100 mph (161 km/h) with that engine. Acceptable power range is 52 to 80 hp (39 to 60 kW).
