An EcoTipping Point is a “lever” that reverses environmental decline, setting in motion restoration and sustainability. To do this, an EcoTipping Point must overcome the vicious cycles driving decline, transforming them into “virtuous cycles” that drive restoration. What are the characteristics of an effective EcoTipping Point lever?

This web site is dedicated to the work of the Irish poet W. B. Yeats (1865-1939), specifically to the strange, esoteric system which he and his wife, George, created, and which he expounded in A Vision. It is intended primarily for students of this work, and also for those who are interested in the intellectual and symbolic background to his later poetry and prose.

The year 2002 could probably be described as "the best of times, and the worst of times." One level, Korean cinema continued its breathtaking run of popularity with local audiences, winning over a 45.2% market share in Seoul, only slightly lower than the 46.1% recorded in 2001 (market share in Korea as a whole was likely higher, but harder to measure).
