2.0 Bizarre movements rats do. 2.1 Why do my rat's eyes bulge in and out? Sometimes, a rat's eyes may vibrate rapidly in and out of the eye socket, a phenomenon called eye bogging. This odd eyeball movement often occurs at the same time as bruxing, or tooth grinding. The reason bruxing and eye bogging occur together is anatomical: a part of the muscle that pulls up the rat's lower jaw passes ...
