What is Ability Draft. Ability Draft is the new mode you unlock at level 5. Here, everyone is assigned a random hero. You will be given some time to look over the abilities and heroes, and then you get to go in turn (5 seconds per ability, which is incredibly short, so if you're not prepared, you will time out and get a random ability) picking which abilities you want for your hero.

T What almost every stealth/invi hero have in common is a really low HP pool. the way to gank them is fast bursts and truesight. And zeus have both. His ult is global and reveal stealth heroes, same does his W but that only reavels and dosen't damage.

The most important Mage by a wide margin is Razor. Mages win fights by dealing enough AoE burst damage to wipe away entire teams with their ultimate abilities, and a level 2 Razor is capable of handling a significant percentage of that.
